

# CARDBOARD CITY

## WHAT YOU NEED

blank cardboard - opened and flattened  
marker

## LET'S GO

Start your city by drawing a big house, then add a yard and a driveway big enough for your favorite toy car. Keep drawing, add more houses, roads, parking lots, stores, movie theaters, and anything else you can dream up!

You're the mayor of your very own city!

HAVE FUUUUUN!!!

week night

# TREASURE HUNT

## WHAT YOU NEED

10 sheets of blank paper  
marker

## LET'S GO

Take a sheet of paper and draw a birds-eye view of the kitchen with **X** marked somewhere within the kitchen.

Once drawn, walk to a bedroom and place that sheet hidden within the bedroom.

Take the next sheet and draw a birds-eye view of the bedroom with an **X** marked where the sheet was hidden.

Take this sheet into the living room, and hide somewhere within the living room.

Grab another sheet and draw a birds-eye view of the living room with an **X** marked where the sheet was hidden.

Continue this process until all 10 sheets are used and all rooms have been used.

Give the last sheet with an **X** room on it with an **as** a starting point to the kid(s).

Now they use the sheets to go through a hunt through out the house until they find the **LAST** sheet.

HAVE FUUUUUN!!!
